DOLOMITAS ORGANIC - CASA LOS FRAILES

At the foot of the Dolomite mountain, we find the Monastrell of the shallowest soils of the farm, where the roots of the vines drop only 60 cm to hit the Mother Rock. In this wine we seek the originality of this Monastrell found with the Roca-Madre. Respecting this personality as much as possible, we decided to make the wine as the friars did on the estate, limiting the intervention in the cellar to a minimum and using the same tanks and amphoras that the friars used centuries ago.

The aging is 10 months in old concrete tanks and clay amphora.
