Winemaking:

The wine is produced using traditional methods. It begins with destemming, followed by fermentation techniques that carefully maintain a controlled temperature between 24 and 28 °C. This process is enhanced by daily pumping over, ensuring optimal extraction of aromas and colour, resulting in a vibrant wine experience.

Tasting Notes:

It is ruby red wine, ranging from intense to clear. It presents a pleasantly vinous and strong aroma that evolves into a fruity bouquet. The flavour profile is dry, with a prominent herbaceous quality and well-balanced tannins. This wine has good ageing potential.
